

Firewood Special Offer Ends 31st August 2015

Get Stocked Up Now For Christmas!!

Firewood

M.Large have been supplying Firewood for many years now. With the burgeoning Northern Ireland market for wood energy appliances like boilers and stoves, our sales of bulk and bagged Firewood have seen huge increases in the last few years.

Bulk Firewood is usually sold by volume and not weight to allow for varying moisture content in the wood— we wouldn't want to charge you for rainwater!

Did you know that kiln dried Firewood only provides about 10% more heat than seasoned Firewood? Yet people are still paying up to 90% more for kiln dried than for good quality seasoned Firewood.

Seasoned hard and softwood is sold loose per cubic meter or in bags including net bags, barrow bags and bulk bags. Collect from our depot or contact us regarding deliveries on

028 9034 2838.

Woodchip Mulch

For many years, M. Large has produced high quality woodchip mulch as a by product of tree work operations to customers throughout Northern Ireland. When processed by our specialist machinery, fresh tree bark mulch can be used for a variety of applications including play areas, gardens, pathways, horse gallops/riding areas and in some cases, animal bedding. When composted and graded, it is ideal for all horticultural operations. Screened and processed in our yard with no chemical additives this is a low cost, organic treatment for supporting plant growth and maintaining good moisture and nutrient levels in the area used. Fine and medium grades are available, loose or bagged, for collection from our depot. Deliveries can be arranged by contacting us on

028 9034 2838.
